

# FREMONT MISCHIEF GIN

*Balanced juniper & floral, layers of citrus,  
sweet spice & peppers*

**GRAIN BILL:** 100% Soft Winter Wheat  
& 12 botanicals

**VARIETAL(S):** Cara

**GEOGRAPHY:** Cascadia - Skagit Valley, WA  
& Willamette Valley, OR

**DISTILLERS NOTES:** Our Gin begins by infusing botanicals into Mischief Vodka. We never use NGS (neutral grain spirits) purchased from the big producers as a base. Our Gin, just like all our whiskey and spirits, begins with grain grown in the rare earth of the Skagit and Willamette Valleys, west of the Cascade Mountain range. Mischief Gin is balanced, with as much floral coriander as juniper; followed by layers of citrus, floral peppers and sweet spice. And, just as when we make Mischief Vodka, we let our Gin “rest” for many months before bottling. Fremont Mischief Gin fully emerges harmonious, a smooth sipping, refreshing spirit.

## AWARDS:
